Bug Report #1

Title:

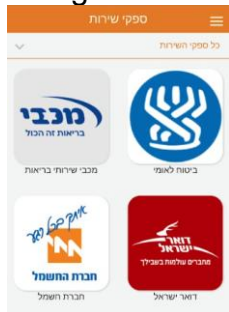

WAZE app opens without navigating the user to the destination.

Description:

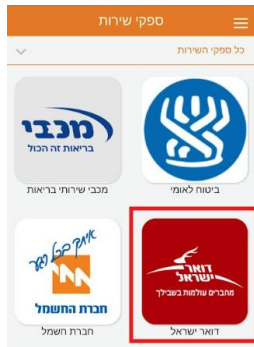

When you set an appointment to a certain body, the app can interface with the Waze app to navigate to the destination you set the appointment to. However, when you click the navigation icon and the Waze app opens, it doesn't lead to any destination. (For example, I made an appointment for both the post office and the tax authority, and in both cases, it did not lead me to any destination).

Steps to restore the bug:

1. Navigate to the main page of “ספקי שירות”

2. Click on: “דואר ישראל”

3. Enter a phone number

The screenshot shows a mobile app interface with a top orange bar containing a home icon, the text 'אנא הזן מספר טלפון' (Please enter phone number), and a right arrow. Below this is a red banner with the text 'מחברים עולמות בשבילך' (Connecting worlds for you) and a logo. The main area has a grey header with 'אנא הזן מספר טלפון' and a white input field with the placeholder 'הקלד את תשובתך' (Enter your answer). At the bottom is an orange button with a phone icon and the text 'המשך' (Continue).

4. Click on: "המשך"

The screenshot shows the app interface after clicking 'המשך'. The top orange bar is the same. The red banner is the same. The grey header now shows the phone number '0505964567'. The white input field is empty. The orange button with the phone icon and 'המשך' is highlighted with a red border.

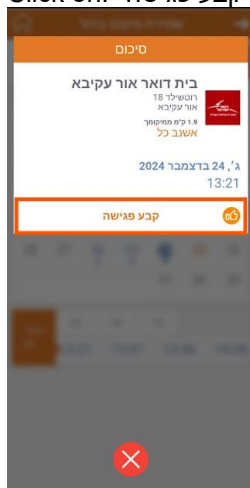

5. Choose: "בית דואר אור עקיבא"

The screenshot shows the app interface with location options. The top orange bar has a home icon, a search icon, the text 'סניפים' (Branches), 'מפה' (Map), and a right arrow. Below is the red banner. The main area has a grey header with 'רפיח ים נתיבות - סוכנות' (Rafiah Yam Netivot - Branch) and 'רפיח ים נתיבות' (Rafiah Yam Netivot). Below this is a white box with the text 'בית דואר אור עקיבא' (Beit Dvora Or Akiva) and 'רוטשילד 18 אור עקיבא' (Rothschild 18 Or Akiva). At the bottom is a red box with the text '1.9 ק"מ ממיקומך' (1.9 km from your location).

6. Choose a date & time

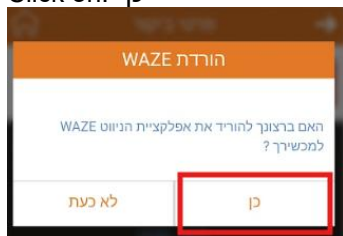

7. Click on: "קבע פגישה" (Schedule meeting)

8. Click on the "נווט" (Navigate) icon

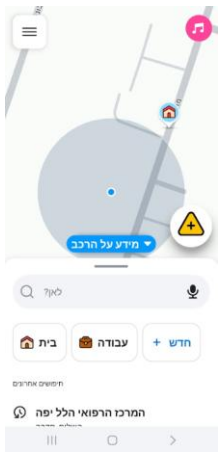

9. Click on: "כן"

10. Click on: "פתיחה"

11. WAZE app opened without navigating the user to the destination

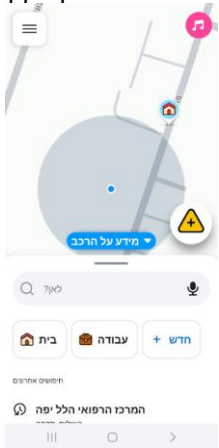

Expected result:

WAZE app will open and navigate the user to the destination

Actual result:

WAZE app opened without navigating the user to the destination

Notes/work-around: No.

Severity: Low.

Priority: Low.
