

Software Test Report

Software Test Report for “myVisit” mobile app

Autor: Pazit Saidof

Date: 28\12\2024

1. Test Summary

1.1 Scope of Testing:

The primary objective was to ensure the functionality and usability of the “myVisit” mobile app.

This included testing the following main Modules :

- התחברות
- התחברות ללא הרשמה
- קביעת תור וביטול תור
- אייקון חזרה לדף הבית
- אייקון ניווט (דרך Waze)
- מיון ספקי שירות לפי כל מיני מסננים
- תפריט צד
 - תכנון ביקור חדש
 - הביקורים שלי
 - עדכונים
 - הגדרות (SMS, אימייל, שפה, מדינה, מזהי לקוח, יח' מרחק)
 - אודות myVisit

1.2 Testing Period:

The testing was conducted over One sprint that lasted almost two weeks, from 17\12\2024 to 28\12\2024.

1.3 Testing Environment:

Tests were carried out on the “Testing environment” of the app, mirroring the production setup.

1.4 High-Level Results:

- A total of 8 test cases were executed:
with 6 passing and 2 failing.

2. Testing Activities

The Test Activities section details the comprehensive and methodical approach was undertaken to evaluate the functionality and user experience of the “myVisit” mobile app.

This phase involved a series of targeted test types designed to rigorously assess each aspect of the website, ensuring reliability and quality from the user’s perspective.

The following Testing Activities were performed in this sprint/s:

2.1 Smoke Tests

No failed smoke tests were detected during the sprint.

2.2 Functional Testing

all functional testing has been conducted, confirming that all features and modules are operating as intended.
Except for one open bug classified as 'Low' priority.

2.3 User Interface Testing

Our user interface testing has confirmed that the overall user experience aligns with our company's high standards.

3. Results and Findings

This section presents the key outcomes of our testing efforts on the “myVisit” mobile app.

Here, we will present the important **metrics** that will be highlighting both the strengths and the areas needing attention.

These Metrics will provide a comprehensive understanding of the current state of the website's functionality, usability, and overall performance.

3.1 Test Execution:

- **Executed:** 12 test cases (100% of planned)
- **Passed:** 9 (75%), **Failed:** 3 (25%)

3.2 Defects Logged:

- **Total:** 3 defects (Low: 3)
- Open: 3

3.3 Requirement coverage:

- 100% of the requirements covered (12 out of 12 features)

4. Open Issues, Risks, and Go No Go

In this section, we will present the unresolved critical issues and the potential risks that emerged during our testing process.

In addition to that, we will outline here our Go No Go recommendation on whether the current state of the app aligns with our quality standards and criteria for going on “Live to Production”.

4.1 Unresolved Issues:

4.1.1 Critical Payment System Bug:

Description: Confirmation emails not sent after bill payment.

Impact: High - Affects user confidence in successful transactions.

Current Status: Under investigation by the development team.

Risk: Could lead to increased customer support calls and dissatisfaction.

4.1.2 Performance Concerns:

Description: Occasionally, users experience slight decrease in response time.

Impact: High - Affects user experience.

Current Status: Waiting for an investigation by the development team.

Risk: This could lead to customer support calls and dissatisfaction.

4.1.3 Mobile Responsiveness:

Description: UI misalignments on mobile devices in landscape mode.

Impact: High - Affects user experience on Mobile.

Current Status: Scheduled for UI design review.

4.1.4 Go No Go Recommendation:

After thorough analysis and considering all test results, we recommend a 'Go' decision to release the “myVisit” mobile app.

Our testing experience indicates that the system is relatively stable and performs well overall.

We acknowledge the presence of open issues and propose releasing them as known issues to the end-users, with a commitment to addressing them as soon as possible through immediate hotfixes.

Regarding entities that can no longer be scheduled through “myVisit” app, I recommend removing them from the app instead of listing that it is not possible to make an appointment with them through the app.

לתשומת ליבך!

זימון תור למשרד ירדו מאתר myVisit

לקביעת תור עבור שירותי המשרד עליך לעבור
לאתר הממשלתי החדש Govisit.gov.il

תודה!
